

Kosciusko County Right to Life

December 2008/January 2009

Thoughts from the Director

What a difference a few weeks make. Post-election we now have many challenges at the federal level. The real possibility of the Freedom of Choice Act being passed will create many challenges at the state and local level also as many of the current state laws restricting abortion may be wiped out. Barack Obama has promised to reverse many of the Bush executive orders on the first day of his presidency as well as supporting the passing of many anti-life laws.

While it's easy to concentrate on the negative, we cannot forget that unborn babies and their mothers still need us. People here in Kosciusko County need to continue to hear the truth about not only abortion, but also stem cell research, euthanasia and organizations like Planned Parenthood.

Two days after the election I sent out an e-mail to our e-mail update list to encourage people not to give up. If you are not on our e-mail list, you can see the article on page 3.

The KCRTL Board realizes the struggle we will experience and is making plans to expand KCRTL's efforts to promote the pro-life message. By the time you receive this newsletter the KCRTL Board will have held a planning retreat to work on short and long-term goals for the organization.

We will share information from this retreat in the next newsletter. For now, I would encourage everyone to consider doing the following:

- Pray that God would change Barack Obama's heart and the hearts of those around him.

- Be sure you are receiving our e-mail updates. If you are not on our e-mail list, you can send a message to info@kcrtl.org requesting that you be added to the list.
- Help us show the strength of the pro-life movement here in Kosciusko County by including your name in the January Sanctity of Life newspaper ad. See this page and page 4 for details.
- Help stop the Freedom of Choice Act. See the article on Page 3. In December KCRTL will be providing information to our email update list (and in the February/March newsletter) on how you can participate in the effort to stop the FOCA being signed into law.
- Encourage your pastor to attend the 3-hour Post Abortion Counseling workshop on Thursday, January 15. See page 2 for details.
- Please consider a generous tax-deductible donation to help KCRTL continue to be a strong pro-life voice. You may make a one-time donation using the regular response card or make a monthly pledge donation using the automatic giving card.

For Life

Dave Koontz
Director

January Times Union Ad Scheduled for January 24

Once again KCRTL will have a double-page ad in the Times Union in memory of the Roe vs. Wade decision handed down by the Supreme Court in 1973 that made abortion legal throughout all 50 states. See page 4 for the form to include your name or business in the ad.

Please consider participating in this public display of support for the pro-life cause.

If you would like to have your name or business included in the ad, **please complete the form on page 4**. Deadline for names is January 14. The ad will appear in the Saturday, January 24 edition of the Times Union.

Friends for Life Washington D.C. Trip

Students will be traveling to the National March for Life
January 20-22, 2009

\$95 registration fee covers transportation, lodging and some food. Register by December 20, 2008 and save \$20 per person.

Call 260-471-1849 or visit www.ichooselife.org for more information and to register.

Barack Obama May Reverse Successful Abstinence-Based Anti-AIDS Policy

Washington, DC (LifeNews.com) -- A health advisor for Barack Obama says the incoming president will overturn a successful anti-AIDS policy President Bush has employed in Africa that has been based on abstinence education. The policy has significantly reduced AIDS rates and local leaders of nations such as Uganda have applauded it. President Bush's \$15 billion AIDS program focuses on teaching abstinence and fidelity in marriage and nearly 25 percent of the funding for groups involved goes to groups that promote abstinence. However, abstinence education is anathema to the goals of abortion activists like Obama and his supporters such as Planned Parenthood. Susan Wood, the co-chair of Obama's women's health advisory committee, says he will likely revise the AIDS program to axe the abstinence funding and promotion in favor of promoting and funding contraception. "We have been going in the wrong direction and we need to turn it around and be promoting prevention and family-planning services and strengthening public health," she said. But Bush's focus on abstinence has paid dividends where it has been used extensively, such as in Uganda, where the rates of AIDS have gone down by half during the last decade.

Marching As To War

Facing the most pro-abortion administration in U.S. History, the Catholic Church is mobilizing to respond. In a meeting yesterday (11/11/08), 220 Catholic bishops drafted an official statement, warning Capitol Hill and President-elect Obama that passing the Freedom of Choice Act (FOCA) would be viewed as a direct attack on religion. Back in July of 2007, Barack Obama announced at a Planned Parenthood banquet that signing FOCA was his first priority: "Well, the first thing I'd do as President is sign the Freedom of Choice Act. ...On this fundamental issue, I will not yield and Planned Parenthood will not yield." With almost full control of Congress, Obama will be expected to live up to his promise as payback for the abortion community's support. If successful, the newly expanded majority would abolish over 300 pro-life laws and restrictions - - even reinstating partial-birth abortion.

Although the Catholic bishops have offered to work with the administration on a number of issues, the defense of life is non-negotiable. "This is not a matter of political compromise," said Bishop Daniel Conlon of Steubenville, Ohio. "It's a matter of absolutes." For some leaders, the church's forceful opposition to FOCA could be the excuse Catholic Democrats need to vote the legislation down.

If not for their conscience, members should be wary of the Bishops' warning for the mere fact that Catholics are a powerful player in the U.S. health care system. As Ed Morrissey points out, Catholics run more than 550 hospitals and 415 clinics in America, spending billions out of pocket to help the disadvantaged get the care they need. Under FOCA, religious providers would have two options: either comply with the abortion mandate or end their services completely. Is Congress so intent on appeasing Planned Parenthood that it would jeopardize the health care of 90 million Americans? We'll see.

Family Research Council Washington Update 11/12/08

Post-Abortion Stress Workshop

For

Pastors and/or Their Spouses

This 3-hour workshop will be led by Kim Olson, professional trainer and manager of the Abortion Recovery Ministry for Hope for the Heart, a Texas-based ministry.

Date: January 15, 2009

Check-In: 8:30 am to 9:00 am

Time: 9:00 am to 12:00 noon

(The workshop will be followed by lunch from 12:00 to 1:00 pm.)

Location: Winona Lake Grace Brethren Church

1200 Kings Highway

Winona Lake, IN 46590

There is no charge for the workshop or lunch.

Please RSVP by January 12, 2009

by calling Dave Koontz at 574-551-0239

or e-mail: info@kcrtl.org

Please let us know if you will be attending the workshop and if you will stay for lunch.

Guilt and sorrow from abortion hold countless women emotionally and spiritually captive—struggling with toxic emotions from depression, fear, anger, grief, and anxiety. This workshop will help participants understand the needs of post-abortive women.

Congress Will Fund UNFPA, Forced Abortions for Obama, Representative Says

Washington, DC (LifeNews.com) -- One of the leading pro-abortion members of the House of Representatives says Congress will do the dirty work for incoming president Barack Obama when it comes to funding the United Nations Population Fund (UNFPA) and forced abortions. Rep. Carolyn Maloney held a press conference Wednesday discussing the taxpayer funding. Maloney told reporters that the Democratic-controlled Congress, run by abortion advocates, will restore the \$40 million annual funding to the UNFPA with Obama's support. "You know the president will have to do nothing," Maloney said, according to CNS News. "He will just have to let the will of Congress go through. One of the changes is that UNFPA will be funded." If Congress or the Obama administration restore the UNFPA funding, Douglas Johnson, the legislative director for National Right to Life, tells LifeNews.com it would be looking the other way at a federal law prohibiting the funding of groups that are involved in forced abortion programs. "Since 1985, U.S. law has prohibited funding any organization that supports a program of coercive abortion or involuntary sterilization," Johnson explained. "The UNFPA has been a cheerleader for, and participant in, China's coercive population control program. In order to restore funding to the UNFPA, Obama will have to turn a blind eye to the law," Johnson added.

Obama and the Freedom of Choice Act

What is FOCA?

A priority of Obama and the Democratic congressional leadership and their pro-abortion allies is the passage of a devastating piece of legislation...the so-called Freedom of Choice Act (FOCA).

What would FOCA do?

FOCA would eliminate all of the federal and state laws passed in the past 35 years that restrict abortion and protect women and unborn babies...laws that the majority of Indiana residents support. If FOCA becomes law...

- You, as a taxpayer, forced to pay for abortions
- Partial-birth abortion legal again
- Secret abortions for our minor daughters with no parental involvement
- No required information or waiting periods for women seeking abortions
- Medical professionals and facilities forced to perform abortions

All the laws that have been saving human lives since 1973 would be wiped out by FOCA with no hope of passing future protective laws. And the number of abortions will skyrocket!

This Isn't A Time To Give Up

November 06, 2008

By Dave Koontz

The following article was sent to the KCRTL E-Mail Update List two days after the elections

Tuesday's election results will have far-reaching negative consequences for the pro-life movement. If President-elect Barack Obama makes good on his word we will see pro-life laws that were passed over the last 36 years wiped away with the stroke of a pen (Freedom of Choice Act). With Obama's plan to only appoint Supreme Court Justices who support *Roe v. Wade*, we could likely see the Court with an even more pro-abortion majority that could last for 30 years or more. There will be much work to do at the national level, mostly defensive in nature.

My feelings right now remind me of the way I felt back in the mid-1990's when I had been involved in the pro-life movement for about five years. At that time the movement was not making any noticeable progress at the national level and I wondered if it was worth continuing to be involved. However, at that time I felt God encouraging me that no matter what happened at the national level, I could still make a difference right here in Kosciusko County. Even if nothing changed at the national level I could still save lives and help women avoid a decision that would negatively affect them.

In some ways our situation now is no different than what I felt 13 years ago. We have a real struggle on our hands legislatively, but we still can change hearts and minds and save lives in our own county. Working together we can make a difference for life by continuing to promote the value of all human life through education, whether it's convincing people one-on-one or general education through billboards, radio, newspaper ads, etc.

Now is not the time to give up. We need to remember that God calls us to be faithful and to leave the results up to him. We need to be faithful and stay involved for the babies and their mothers. KCRTL, with your help, will continue to promote the pro-life message no matter what is happening at the federal and state level. Working together we can make a difference.

I hereby give permission for my name or business to appear as a supporter of the following statement:
"We, the following citizens and businesses in the Kosciusko County area pledge our support for all women and their families as they consider options other than abortion. We stand opposed to our nation's "culture of death" which has claimed over 50 million unborn children through abortion and has left millions of mothers, fathers, and families suffering physical and psychological pain due to their "choice." We support real rights for women...a right to know all the risks involved in abortion, the right to be given accurate fetal development information, and the right to be offered true choices and alternatives. We also support those organizations that treat the mother and child with the love and respect they both deserve.
